

Want to know the secret
to stress-free moving?
Let Eliminate Chaos
handle everything.

Amazed. Relaxed. Organized.

Nobody *ever* feels like that after moving, do they?
Well, Eliminate Chaos clients do — and many of them say they'll never go through another move without us.

We believe moving is more than simply getting your stuff from one place to another. It's about creating a plan to meet the unique challenges of your move. Providing resources from our trusted network to execute that plan and apply the finishing touches, whether it's unpacking and organizing or making sure your priceless art is displayed correctly. And perhaps most important, it's about minimizing your anxiety by giving you the precise level of support you need, from beginning to end.

All so you can feel right at home in your new space — as soon as you get there, not weeks or months later.

Your move. Our expertise.

Every move is different; we've worked in one-bedroom condos, and we've managed complicated moves to large estates — and everything in between. That's why we offer a diverse range of services that can be combined to meet any conceivable need. Some clients pick and choose what areas they want the most help with, while others have our experts handle everything, including:

Move plan creation. We will look at every detail and determine the best way to complete your move. We can even recommend movers that we know and trust.

Project management. In addition to keeping the movers on schedule, we'll manage other concerns, such as ensuring access in high-rises or coordinating multiple-location deliveries. And our vast experience allows us to find solutions to even the most challenging problems.

Vendor/resource management. Perhaps you have an interior designer or other contractors working at your new home — for example, installing a wine cellar, custom cabinets, or wiring a room for home theater. We can track their progress against your timelines, and keep you fully informed, so there are no surprises when it's time to move in.

Downsizing and de-cluttering. Why pay to move stuff you don't need? We'll help you eliminate those items before you move, saving time and money.

Packing, unpacking and organizing. With most movers, "unpacking" means your stuff ends up on the floor. Our approach leaves you with boxes unpacked and everything put away in an organized fashion — for just \$10-\$15 more per hour than you'd pay your movers to unpack. Even your furniture will be placed where you want it.

Ongoing maintenance. We want you to enjoy the benefits of organization in your new home for years after your move, so we'll provide instruction on continuing what we've started together. Don't be satisfied with an organized move — live an organized life!

Who we are.

Founded in 2000 by award-winning entrepreneur, speaker, author and Certified Professional Organizer (CPO®) Laura Leist, Eliminate Chaos is the largest professional organizing company in the state of Washington.

We work with individuals who want to become more productive and organized.

Our clients include people from all walks of life: CEOs of multibillion-dollar corporations, high-profile athletes, solopreneurs, even paper-and-systems-fatigued offices. They all have one thing in common — they see the value in getting expert help to escape the disorganization that steals time and energy from their lives.

Laura has been providing organizing expertise since her childhood, when she made sure her visually impaired mother could always find what she needed. Those acts of service and love built a strong appreciation for form, function and order — and a firm belief that anyone can get more out of life by getting organized.

Today, every ORGANIZING SPECIALIST™ on Laura’s team shares that belief, and clients rave about how we deliver on our promise. We listen compassionately and build customized solutions that work. Then we provide the tools to help maintain those solutions.

At Eliminate Chaos, we recognize that organizing is about more than simply putting things in their place — it’s about creating thoughtful and efficient systems that deliver practical benefits for years to come.
